

METAL CLAD CABLE, FLEX & LT - Pre-wired armored and metal clad cables, flexible wiring systems, flexible metal, non-metallic, and flexible metallic liquid tight conduits, and fittings used in the construction and modernization of commercial office buildings, institutional facilities, shopping centers, and multi-family dwellings.

PVC CONDUIT & FITTINGS - Rigid PVC Conduit, fittings and utility duct. Allied Tube & Conduit® PVC operates eight manufacturing facilities throughout the U.S. producing quality PVC Conduit, fittings and pipe for the electrical, irrigation, municipal and plumbing markets.

STEEL CONDUIT & FITTINGS - Conduits made of Steel: EMT, IMC, GRC and Aluminum. Allied offers innovative products and engineered solutions to meet every application challenge helping you save time and money.

PVC COATED PIPE & FITTINGS - PVC Coated Conduit is used for highly corrosive environments. The coating will provide corrosion protection and mechanical protection with a premium ETL Certification. Ground continuity is maintained throughout the installation.

CABLE TRAY - The premier brand of cable management solutions, featuring a full array of metallic and non-metallic cable tray. The offering includes ladder tray, channel tray, wire basket tray, and our newest product line addition, I-beam tray, along with a full portfolio of accessories. Cope cable management solutions are suitable for power and datacom systems alike.

STRUT & FITTINGS - Steel, aluminum, and fiberglass strut and accessories used extensively in electrical infrastructure support. Power-Strut is available in a range of corrosion inhibiting finishes making it a prime choice in today's marketplace. The Power-Strut system is infinitely adjustable for a multitude of configurations and uses.

HDPE CONDUIT & FITTINGS - With convenient locations across the country, we manufacture high and medium density conduit and pressure polyethylene pipe for the energy, telecommunications, renewables, and water infrastructure markets. Our products are UL Listed, NSF certified, AWWA compliant, and adhere to ASTM standards for plastic pipe.

SOURCERY'S FASTPULL is designed to make installation easy, drastically reduce labor costs, avoid material waste, and simplify jobsite management. Pulling multiple cables to multiple locations is costly, time-consuming and impractical. Implementation shows that FASTPULL cables save between 35-75% labor on every project.

GENESIS - Low voltage cables, Security, Fire, Sound, Video & Data
